Pesticide Statement
JustIngredients do not knowingly supply material containing pesticide residues above the legal maximum residue levels (MRL’s), Codex recommendation or at a level that could cause a food safety risk under the Food Safety Act. Suppliers risk assess the materials supplied to JustIngredients and where a pesticide issue is considered a risk the supplier arranges applicable testing and issuing of results before the materials are accepted by JustIngredients. Where pesticide residues are assessed as ‘low risk’ the supplier may carry out random testing.

Organic materials are guaranteed free from pesticides through a chain of approval and supplier assurances.

Micro Statement
This product product has not been treated by heat. Herbs and spices are naturally sourced agricultural products which may contain naturally high microbiological flora. Where low levels of microorganisms are a specific requirement then customers are advised to use raw materials which have undergone a method of heat treatment to reduce the microbial load. JustIngredients will not accept responsibility for the incorrect application of products which result in final products being rejected.

Health & Safety
A non-hazardous product if used under normal circumstances. Buyers of our products are aware that if our products are used for food use, goods must be cooked thoroughly before use. If you are unsure of the suitability of our product for your specific use, you should not use and seek further information from our customer services at technical@justingredients.co.uk

Use in production:
If the goods or any part thereof supplied under the contract are processed, altered or tampered with in any way by the buyer or receiver of the goods or any other person, the quality of the goods shall be deemed to be acceptable to the buyer. All customers' quality control checks are to be completed on the entire load prior to use in production or re-sale to 3rd parties in original state or as a blend.
